

DUE: **Wednesday, May 22**

This project asks you to explore your artistic preferences.

1. What piece of art did you write down as your favorite at the start of the year? Why was it appealing to you? If you did not write it down, or you do not remember what it was, please try to think of something that seemed appealing before you took the course. Now that you've concluded a complete survey of art from Prehistoric to Modern, how have your preferences changed throughout the year? Are there styles or movements that are appealing to you that were not before? Are there things that surprised you, or that you found to be unappealing? Explain... (Page 1)
2. Go through the book and **rank the top 10** pieces of art according to you. For each, insert the image and a typed reflection/analysis of what it says to you and why it is in your top 10. Make sure you cite the artist, title, and date of each piece. (Pages 2-11)

#10 (or #1)
Title
Artist
c. date
Reflection and analysis for why this piece is in your top 10.
