

San Diego Museum of Art/Timken Museum

Write a brief (typed) **review** of your experience, with the following considerations:

A. The Museum

- Overall impression of the museum itself
- Flow of the museums floor plan
- Feeling from the architecture/design of the museum (may also include wall colors, ceiling, floors, lighting, frames, etc...)
- If you were recommending this museum to a friend, where would you tell them to focus their time, what are some can't miss pieces, what are some things/areas to skip if they are pressed for time.

B. The Art

From SDMA: Pick two paintings, one sculpture, and one other work of your choice (any medium)

- State the artist and title for each
- Describe the pieces
- Play the role of art critic to discuss the works

From the Timken: Do the same as above for two works.

Typed museum reviews are due on Monday, 6/3.
